

WHEN YOU WISH UPON A SEA STAR...

October 5-9, 2020

Often overlooked, yet these unique and sometimes even bizarre critters along with others of their kind make up more than 90% of the animals we share our planet with. Members within this diverse group can be found from the shoreline down to the deepest depths of the ocean and everywhere in between. Still not impressed? They also make up the base of the food chain not just for marine life, but for us as well, and they're believed to be the very first animal species to have ever existed. Yes, you may have guessed it by now, all week long we'll be connecting with our spineless and distant relatives, better known as marine invertebrates!

	MONDAY October 5	TUESDAY October 6	WEDNESDAY October 7	THURSDAY October 8	FRIDAY October 9
LOCATION	Online	Online	Online	Online	Private boat trip out of Ma'alaea Harbor
